FINANCIAL STATISTICS
CANADIAN MUNICIPAL GOVERNMENTS

THIRTY-FIFTH YEAR OF PUBLICATION - 1954 ISSUE

FOREWORD

The Institute presents herewith the Thirty-fifth Issue of *Financial Statistics — Canadian Municipal Governments.* The aim has been to provide figures that are comparable with those given in previous issues of the "Red Book" and that permit comparison between individual municipalities.

The publication is issued in loose-leaf form and when completed will give statistics for all urban municipalities with a population over 600 with the exception of those in the Province of Quebec. Due to the difficulty in gathering some of the required information, complete coverage can only be provided for the larger cities in this Province. Other statistics on Quebec municipalities in the Institute's files will be given out on request. Statistics for counties in Ontario and the Maritimes as well as for some rural municipalities in Western Canada are also given.

Many of the statistics given in this publication have already gone out to subscribers in mimeographed form. This rush-release service has been developed to provide subscribers with statistics for the larger municipalities as the information is received and analyzed in advance of publication of the "Red Book." In addition, subscribers are invited to write to the office of the Institute for the latest information in the Institute files. Toronto subscribers may make inquiries by telephone by calling WALNUT 1-5444.

With the current issue, "Red Book" subscribers will note certain changes in the layout of the material. While the population groupings — (1) over 10,000, (2) 2,000–10,000, (3) 600–2,000 — have been retained, all suburban and semi-urban municipalities are now listed with urban centres in the appropriate categories. For each category in turn, municipalities in the Western provinces are again reported first and then, progressing eastward, the centres in other provinces are listed. The special page on Newfoundland municipalities is continued for all places except St. John's, which is included with the Maritime centres over 10,000 population. Data on rural and district municipalities, including Ontario counties, is now presented in the final three pages. Pages thirty-two, thirty-three and thirty-four have been reserved to allow for the possibility of a broader coverage of Quebec municipalities in the future. The indexing has been revised to take account of all changes in page listings.

The Institute wishes to express its appreciation of the excellent co-operation received from municipal treasurers and clerks, school treasurers and the provincial governmental departments concerned with municipal and school statistics in the supplying of these data. It also wishes to thank its subscribers for their continued support.

(*S*) Surplus.
(*D*) Deficit.
(*a*) As standards used for urban municipalities do not apply, figures have not been put on a per capita basis.
(*b*) Excludes municipalities separate from the county (cities and separated towns).
(*c*) This property is liable for taxation by the township, village or town within whose limits it lies.
(*d*) Levied on the various municipalities within the county and not directly on individuals.
(*e*) As county rates need not be paid until December 20 (after which interest is charged), it frequently happens that a considerable amount of taxes unpaid at December 31 may be paid at a date early in the next year.
(*f*) As far as can be ascertained none of these debts is for public utilities.
